Nutritional Supplements

Vitamins and mineral supplements can provide valuable assistance when they are taken in your diet. The essential vitamins are the supporting cast to a healthy body, people who lack one or more of vitamins and minerals often see their body stop at preventing or their achieving optimum health. A high-quality multiple vitamin and mineral supplement is a strong recommendation.

Herbal Tonics

Herbal tonics are defined as agents which have strengthening effects and which tone up the entire body or specific organs, structures or body functions. These herbs can help prevent against the development of disease or a particularly weak organ or body system. It is often difficult to "fill" people on herbs. In order for the body to take the tonics, they must be used in a way that is not too harsh. The most effective way to use these tonics is to use them in a way that is not too harsh.

Tianshi Antilipemic Tea
